CANON MEXICANA, S. DE R.L. DE C.V.

TITULO: **POST SALES ADMINISTRATION OPERATION POLICY**					
REF: BISGAV-003/18	INICIO VIGENCIA			VERSION	PAGINA 1 DE 4
	DIA	MES	AÑO		
	31	05	18	**1 .0**	

OBJECTIVE

Establish the guidelines for the correct after-sales operation of the businesses generated by the direct sales area of the BISG division.

SCOPE

All the businesses generated by the Direct Sales area of the BISG division

1. In order for an equipment to be shipped out of the warehouse, it is mandatory that the equipment is coverd by a signed contract by both parties (Consult policy BISGAV-001/18), which must be attached to the Shipment Order

2. To ship an equipment, it is mandatory to generate a shipment order in Lotus Notes filling out all the corresponding fields (for more information, see Manual de Operación de Supervisor de Administración de BISG)

3. The areas that participate in the authorization flow, are the following:
    a. Sales
    b. Service
    c. Sales Administration
    d. Credit & Collection
    e. Order Desk
    f. Credit & Collection
    g. Warehouse
    h. Sales Administration

ELABORADO POR	**REVISADO POR:**	**AUTORIZADO POR:**
Jaqueline Aquino Supervisor, Administración de Ventas BISG	Arlette Martínez Gerente Senior, Administración de Ventas BISG	Morihiro Eto Director, Administración de Ventas BISG
FECHA: 30/05/2018	FECHA: 30/05/2018	FECHA: 30/05/2018

4. Each shipment order should be captured and processed by Order Desk in S21 (refer to policy CONPROD003/18 from Product Control) and it is mandatory that Credit & Collection to release the holds generated in S21.

5. Warehouse area must follow up the Folio through S21, if it is received before noon, the equipment can be shipped within the same day, in case it is received after noon, the merchandise will be delivered the next working day to the assigned carrier.

6. Delivery time response within the metropolitan area is of 1 working day once the carrier receives the merchandise, and for foreign locations, 2 working days for centric zones, and a maximum of 8 working days for distant locations, depending on each region.

7. For the delivery of merchandise to the client in the metropolitan area, the carrier must confirm the delivery to the Sales Administration department, who once confirmed the delivery, will proceed to the opening of the call in S21 for its installation (for further reference, consult BISG Sales Administration Supervisor Operation Manual)

8. For shipments to foreign location must register the guide number with which they were shipped to monitor delivery with the customer.

9. The installations within the metropolitan area should not exceed 2 business days after the call is registered in S21 as well as in foreign location, they must not exceed 4 business days after being notified by written to the Dealer (for reference, consult Service Administration Policy - Customer Care Center)

10. In the same way, for those equipments that have been assigned to be attended by a Dealer, the corresponding assignment letter must be generated and uploaded to the ExtraNet so that the Dealer can perform the installation

11. The Customer Care Center area is responsible for concluding the closing of installation calls in time with the corresponding acronyms depending on the outcome of each installation.

12. As soon as the equipment is installed, Sales Administration must create the respective contract in S21 (see Operation Manual) according to the agreed conditions. For the effective date, this will correspond to the date of installation; however, if the equipment is installed, after the 25th of the month, the effective date will be traced to the 1st day of the following month.

13. The equipment that due to circumstances outside of Canon can not be installed will proceed to the creation of the corresponding contract, taking into account as a reference, the closing date of the installation call or the agreement made with the Customer

14. All the contracts generated by the Sales Administration analyst should be generated under the "PreApproval Required" mode and it is the Sales Administration Supervisor who must perform the final approval of each contract. The contracts of equipments installed until noon of the 29th day of each month should be generated within the same month. Those whose installation has been concluded afterwards, can be generated in the 1st working day of the next month.

15. Any modification requested by the customer at contractual level, such as: change in prices, volumes, scheme, currency, change of company name, assignment of rights m, ust be through an Addendum or Modification Agreement, as the case may be, and Sales Administration will be responsible for making the respective modification in S21.

16. Equipment invoicing will be processed in arrears (subject to the Client expressly requesting a different condition), and the invoicing must be supported with the reading format corresponding to its period (or the IWR report or the one from the SW installed for this effect)

17. To collect the information of the processed volumes, Sales Administration area must consider as the 1st source of information the counters thrown via IWR, report that must be generated on a daily basis. The information of those equipment that does not report through the IWR, must be requested for physical collection either with the contracted third party or through the Dealer, in case the equipment is not attended directly

    Processed volumen is calculated as follows:
    Final Counter – Initial Counter = Processed Volume

Unless otherwise specified in the Contract, all clicks are converted to Letter size, so the counters that are used for billing purposes are the following:

Equipos B&W:	Contador 102
Equipos Color:	Contador 109
	Contador 124

For further reference, consult Sales Administration Coordinator Operation Manual.

18. For those equipments attended by the Dealer, the latter is obliged to take the meter readings according to the schedule provided by Canon. Respecting the following times:
    a. The information of readings from the 1st to the 15th of each month, must be sent before the 19th.

b. The information of readings from the 16th to the 31st of each month, should be sent during the 1st week of the following month

In order for the Dealer to issue the invoice, it is mandatory to send the consolidated information in an Excel file. Once the information has been validated, the Dealer must send it by mail:

- Invoice
- Invoice Validation (PAEBSA)
-

*It is the Distributor's responsibility to obtain said document directly from the PAEBSA portal (for further reference, consult the Accounting Policy CONT-003/08)

Once the information has been entered into ARCS, the Supervisor is responsible for approving the invoices, and the authorizations are turned over to the Director of Sales Administration if they exceed the amounts established by Accounting (for further reference, consult Accounting Policy CONT-003/08)

19. Regarding the generation of Credit Notes, these must be requested by the Invoicing Analyst directly in the Lotus Notes database "BISG Credit Notes" with the following conditions:

    a. Credit Notes CN:
        - When its purpose is reinvoicing
        - Due to deviations in volumen informaiton
        - Due to mistakes in the contract conditions at S21 level
        - Due to S21 desviations
        - When the source of the CN is a bonfication due to service issues.
    b. Bonification
        - When it is related to discounts/bonifications pre-approved at contractual level.

Once the NC has been requested, the Sales Administration Supervisor must review and authorize it, and it is the C & C area that must generate the NC directly in S21 and register the closure in the base of the LN, specifying the Folio No of the NC that shows S21

In the case of an NC whose origin is Service, the authorization flow includes the Service Sr. Manager and the Director of Sales Administration.
