	INICIO VIGENCIA			VERSION	
REF:VENDISBISG-002	DIA	MES	AÑO		PAGINA 1 DE 2
	01	06	18	**1 .0**	

1.- Objective

Increase sales of office equipment through our Authorized Distributors offering more alternatives such as the line of reconditioned equipment called "RFB or Light Refurbish" to meet the requirements of the market nationwide and achieve the projected sales targets by Canon Mexicana.

2.- Scope

All the models launched as "RFB" BISG line up with the purpose of standardizing the correct devises operation, as well as maintaining an optimal inventory to be offer through our distributors.

3.- Guidelines

The commercialization of equipment "RFB" will be carried out under the following guidelines that were previously agreed with CUSA, the models, counters and configurations necessary to have the proper line up for commercialization.

4.- Process

4.1.- The models, counters, configuration of the equipment selected were previously standardized with CUSA to sale in the Mexican territory.

4.2.- The purchase of "RFB" equipment´s is made twice a month according to the availability offered by CUSA at that moment.

4.3.- Previously it is reviewed with sales executives to know the projects considering the "RFB" product line.

4.4.- Inventories are reviewed considering the warehouse inventory and equipment´s in transit to maintain an adequate level of inventory sufficient to cover the needs of our customers and Distributors.

4.5.- The selection of existing equipment is made with the specifications previously mentioned.

4.6.- The equipment selection format is sent to the BISG purchasing Department within a period not longer than 2 business days.

4.6.1.- If there is a model that has a higher demand or a specific project out of a regular purchase and the CUSA availability is limited, the BISG purchasing department will be informed to have a intervention with CUSA to review availability once again.

4.7.- The sales and distribution Department are continuously monitoring the arrival dates of the purchases made, 2 shipments have to be received per month.

4.8.- Once the equipment arrives at the warehouse, we informed the Service Department to work on those devices and then we can be published the availability lists sent to the entire Distributors network for sale.

4.9.- The Availability lists are published twice a week to all our Distributors.
