OBJECTIVE

The purpose of this procedure is to provide the basis for supporting the Guarantee Process in order to ensure the proper functioning of the product.

ALCANCE

This document will apply as long as it complies with the Guarantee Process Policies according to the authorized product for authorized ISG distributors.

POLITICAS

PRODUCT CANON

Our warranty Process is based on the warranty Policies and Service Guidelines, stipulated in a period of 3 months or 1 year, for the variety of products sold by the ISG Division of Canon Mexicana.

1. POLICY WARRANTY (3 months[1])

Canon Mexicana, guarantees its products against manufacturing defects in its parts, components, operation or workmanship, for a period of 3 months from the date of installation made by authorized ISG distributors. Consult the Product Service Guide to identify the warranty period

2. POLICY WARRANTY (1 year[1])

Canon Mexicana, guarantees its products against manufacturing defects in its parts, components, operation or workmanship, for a period of 1 year, from the date of installation made by authorized ISG distributors.

---

1 Consult the Product Service Guide to identify the Warranty period

B. A. PARTS OF ORIGIN OF THE PRODUCT WITHIN THE 3-MONTH OR 1-YEAR WARRANTY POLICIES

a) Parts.

In the case of consumable parts or periodic replacement parts within the warranty period of the Product, only those whose performance2 of useful life does not exceed 70% will be approved.

b) Consumables.

Only the following consumables are considered:

(1) Drum.

Total Warranty Warranty against manufacturing defects for a period of 30 days or 1000 copies / impressions3 (or a combination of both) whichever comes first.

Prorated Warranty (partial). After this period of 30 days and up to 120 days from the date of installation of the Product, a Credit will be applied based on the performance stipulated by Canon Mexicana. Those drums that exceed a service life of 70%[4] are not considered.

(2) Print heads PF03, PF04, PF05.

The Warranty will be valid as long as the product is installed by Authorized Personnel (Personnel of authorized Distributors or internal personnel of Canon Mexicana), it is operated and maintained according to the specifications of the product (please see the manual of the product) and have used only original media (papers) and inks of the Canon brand. Any deviation detected from these procedures and recommendations will not be validated.

The Coverage of the Warranty will be valid when any of the following conditions (or a combination of both) is met, whichever occurs first.

1) **1 years of Warranty**. As of the installation date made by authorized ISG Distributors.
2) **When the last digit of the head lot number is "A"**. This data is located in the report called "STATUS PRINT" (the report can be printed from the user mode menu of the equipment in the "Test impressions" or PC options from the "Garo Status Monitor"5).

Note. The Guarantee request will be accepted when the printhead has been installed by certified personnel in the product

[2] Based on short sizes counter (102)
[3] In the case of the series imagePRESS 1135, iRA6000, iRA8000 the value is 10,000 copy / impressions.
[4] In the case of the series imagePRESS 1135, iRA6000, iRA8000 the credit will not when 25% en tamaños cortos (102

C. EXCLUSIONS OF WARRANTY, BY UNIT

1. PARTS[6]

a) Periodic replacement parts, consumable parts. There is no warranty[7].
b) Other Parts. There is no warranty[8].

2. **CONSUMABLES.** *There is no warranty*

Only the following consumables are considered:

a) Drums

2. **Total Warranty** Warranty against manufacturing defects for a period of 30 days or 1000 copies / impressions3 (or a combination of both) whichever comes first.

3. **Prorated Warranty (partial).** After this period of 30 days and up to 120 days from the date of installation of the Product, a Credit will be applied based on the performance stipulated by Canon Mexicana. Those drums that exceed a service life of 70%[4] are not considered.

b) Print heads PF03, PF04, PF05

The Guarantee will be valid as long as the product is installed by Authorized Personnel (Personnel of authorized Distributors or internal personnel of Canon Mexicana), it is operated and maintained according to the specifications of the product (please see the manual of the product) and have used only original media (papers) and inks of the Canon brand. Any deviation detected from these procedures and recommendations will not validate said guarantee.

5 Procedure described in the "PF Status Print Head" document located on the Extranet of Canon Mexicana.

6 When the new spare part presents damage, it is not a part that applies for Guarantee, so it will be notified to the ISG spare parts area and a "Refund" will be processed for its analysis.

7 In order to detect reoccurrence, only those parts in which there is a record of damages due to manufacturing defects will be accepted for evaluation. Consult the ISG Planning staff if the repair in question is within this

registry. If this is registered, a Warranty period of 120 days after its installation will be considered and it will not exceed a performance based on a short size meter with a 70% yield. A Full Warranty or a Prorated Guarantee will apply (Credit stipulated by Canon Mexicana).

8 Only those parts in which there is a record of damages due to manufacturing defects will be accepted for evaluation. Consult the ISG Planning staff if the repair in question is within this record.

9 In the case of the Series imagePRESS 1135, iRA6000, iRA8000 the value is 10,000 copies / impressions.

10 Based on short size counter (102)

11 In the case of the Series imagePRESS 1135, iRA6000, iRA8000 the Credit will not be considered when they exceed a 25% return in short sizes (102)

The Coverage of the Guarantee will be valid when any of the following conditions (or a combination of both) is met, whichever occurs first.

1. **1 years of Warranty**. As of the installation date made by authorized ISG Distributors.
2. **When the last digit of the head lot number is "A"**. This data is located in the report called "STATUS PRINT" (the report can be printed from the user mode menu of the equipment in the "Test impressions" or PC options from the "Garo Status Monitor"5).

Note. The Guarantee request will be accepted when the printhead has been installed by certified personnel in the product

[12] Procedure described in the "PF Status Print Head" document located on the Extranet of Canon Mexicana.

D. ***REFURBISH EQUIPEMENT.***

This warranty is valid only if the installation requirements described in the Service Guide published by Canon Mexicana corresponding to the product in question have been covered.

Warranty coverage. All electrical parts13 of the basic equipment are considered in guarantee such as control card, main card, laser unit, power sources.

Validity of warranty for electric Parts. Three months from the date of installation of the equipment.

Out of warranty. The consumables and periodic replacement parts of the main unit and the accessories referred to in the Service Guide corresponding to the product are excluded from the guarantee.
The photosensitive drum and toner are considered consumables, which is why they are excluded from the guarantee

Considerations

- Basic configuration of the Black and White equipment: ADF, Finisher and MPDL.
- Basic configuration of Color equipment: ADF and MPDL

[13] During the current warranty period, Canon will apply at its sole discretion and without charge, repair or replacement of the defective part with a comparable new or rebuilt part.

E. ***INVALIDATION OF WARRANTY***

UNWORTHED WARRANTY, IN THE FOLLOWING CASES

a) When the product, part or component has been used in conditions other than normal.

b) When the product, part or component has not been operated in accordance with the instructions for use and / or documentation of the product.

c) When the product, part or component has been altered or repaired by persons not authorized by Canon Mexicana.

d) When the product, part or component is not installed by authorized personnel (Personnel of authorized Distributors or Internal Personnel of Canon Mexicana S. de R.L de C.V.)[14]

e) It does not assume any responsibility for the consumables15 (toner, ink, developer, etc.), or the damage suffered by the equipment due to chemical products used by the user.

f) When the product, part or component was sent without the original packaging or without the necessary protection precautions (antistatic bag, original covers, unicel protections, etc.)

g) When the piece or component is intervened, altered or repaired

Note. Only the part or component that is damaged should be sent as guarantee, assemblies that have their internal components broken down will not be accepted. Assemblies where there are no part numbers for their internal components should not be intervened, altered or repaired, it is necessary to send the complete assembly.

[14] Including Wide Format Printers (iPF), Print Heads (PF) and Drums.

[15] The duration of the same, varies depending on the percentage of density of the printed or reproduced documents, in addition to other factors described in the Product Information.
