OBJETIVE

Establish Technical Hierarchy levels in the ITCG Direct Service area according to the technical skills and productivity in the repair by means of theoretical and practical evaluations

SCOPE

This policy will be applicable to all ITCG Direct Service technicians based on annual evaluations, as described below.

GENERAL GUIDELINES

The "Technical Hierarchy" criterion applies from the entry of the Technician to the ITCG Direct Service area

There are 4 hierarchical levels with different responsibilities: Technician I, Technician II, Technician III and supervisor. Everyone must meet the following criteria according to their responsibilities and abilities

	Category	Details
Technical Evaluation <Quantitative>	Quality in repair	• Ability to repair • Repair performance (STD time) • Repair re-entry% Note: Through the Daily Report record
	Technical performance & Knowledge	• Knowledge Examination of Function and Repair • Practical test
Another Evaluation <Qualitative>	Skill in support & communication	• Training capacity • On-site customer support • Elaboration of reports • English level
	Responsibilities / Tasks of other service activities	• Estimates / QC • Customer support / ASAC • Returns

1. Responsibilities and activities by technical levels

   Please refer to annex 1 of this policy

2. Criteria for providing special support in the English language:
   - Only applies for Technician III
   - Canon Mexicana will cover 75% of the payment of classes with an institution that Canon Mexicana selects
   - The Technician III must cover the minimum 80% of credit per English course, otherwise he will lose the support of the company and will remain under his charge and responsibility to continue training in English language for his future development
3. Annual Evaluation:
   - Daily report result during the 12 months
   - Theoretical / practical exam application in the month of November
     Cover 100% of the annual objectives according to their level. Look at annex 1

4. Criteria for level change:
   It is held annually in the month of November
   If the technician meets 100% of his / her objectives (See Annex 1) and there is a vacancy in the superior level, the technician will be authorized to apply an evaluation to change the level

   If there are several candidates and only one vacancy, it will be considered the highest scoring technician

   Technician I a Technician II:
   1) 15 months minimum as Technician I
   2) Approval of Higher-level Evaluation
   3) Cover all the requirements of Technician I and Technician II

   Technician II to Technician III:
   1) 24 months minimum as Technician II
   2) Higher level evaluation approval
   3) Cover all the requirements of Technician II and Technician III

   The change of level can also be in decline when the Technician does not meet the minimum requirements necessary for his level or there are better qualified candidates

   A technician who has been downgraded will have the ability to collapse at his previous level based on the subsequent annual evaluation
