CANON MEXICANA, S. DE R.L. DE C.V.

TITLE: **POLICY OF REFERENCE FOR THE ATTENTION OF EMPLOYEES AT RISK BY DETECTION IN A QUESTIONNAIRE APPLIED ACCORDING TO NOM-035-STPS-2018**						
REFERENCE: **CANON-017**	START DATE			VERSION	PAGE 1 DE 2	
	DAY	MONTH	YEAR			
	01	08	20	**1.0**		

OBJECTIVE

Understand the implementation of the channeling protocol for employees at risk identified by the reference guides of the NOM-035-STPS-2018.

JUSTIFICATION

NOM035 in its numerals 5.4, 5.5, 5.6, 8.1 and 8.2 mentions the need to channel employees identified at risk, to a health, medical, psychiatric or psychological service, for which the following steps identify the path to comply with this requirement of the norm.

This protocol has been identified by specialists in mental health and adjusted to the best practices suggested by the CENETEC Mexican Clinical Practice Guide and the Guidelines for International Care of the American Psychological Association.

SCOPE

This policy applies to all personnel who need to be referred to a health, medical, psychiatric or psychological service derived from the identification and analysis of psychosocial risk factors detected with severe traumatic events, high psychosocial risk and/or violence at work.

GENERAL DISPOSITIONS

Detection stages

- Once the employees at risk have been identified, HR will begin a reference protocol with patients.

Action

Within the scope of the company, it will carry out the following actions:

1. Human Resources must provide the reference agreement (APPENDIX 1) to the employees identified at risk.

DEVELOPED AND REVIEWED BY	**AUTHORIZED BY**
Nelia Ladrón de Guevara Date: 21/07/2020	Carolina Mejía Date: 22/07/2020

2. The employee will sign the reference agreement and delivery it to Human Resources.

   2.1 In case the employee does not sign the reference agreement, Human Resources will record proof of document delivery.

3. Once the reference agreement is signed, the employee will present in the medical service provided by the company.

The employee is covered by medical assistance granted by the Mexican Social Security Institute, but may choose private medical service, assuming the cost of it.

CANON MEXICANA, S. DE R.L. DE C.V.

APPENDIX 1

FORMAT

REFERENCE FOR ATTENTION IN COMPLIANCE WITH THE NOM-035-STPS-2018

I.- Definition of the program Psychosocial Risks Identification

CANON MEXICANA, S. DE R.L. DE C.V. (Hereinafter, CANON MEXICANA) has decided to implement the program called Social Psychosocial Risks Identification, within the framework of the Official Mexican STANDARD NOM-035-STPS-2018, Psychosocial risk factors at work – Identification, analysis and prevention, published in the Official Gazette of the Federation on October 23rd, 2018, hereinafter NOM-035, in order to identify psychosocial risk factors in the workplace and promote a favorable organizational environment.

II.- Authorization from the employee to be referred to the care protocol for employees identified as being at risk in the questionnaire of Severe Traumatic Events, Psychosocial Risks and the presence of Workplace Violence in the same questionnaire.

The undersigned, by name _____. I am informed that I must receive mental health care since I currently require it due to a situation related to NOM-035-STPS-2018. I am aware it has been a service by health personnel, who are acting in good faith and in accordance with their principles of professional ethics to provide me with necessary care. Thus, I acknowledge that there are risks that could be caused to me and I agree to assume them in the face of any remote responsibility.

I understand that this letter of release of responsibilities releases health personnel from any civil, criminal, administrative and any other type of liability, legal actions, damages caused by their practice, and it is also assumed that my employer is facilitating this health care to my person.

I also agree not to take legal action against the doctor and their care since their attention is not supported by areas, instruments, support and the rest of the adequate medical needs as it is not their own medical care unit; despite these circumstances, I accept the support of the doctor as far as their possibilities allow.

I declare that the data set forth herein are true and any omission therein, as well as the liability derived from it, is solely and exclusively that of the subscriber.

I agree [ ] I disagree [ ]

Continue with this protocol established by CANON MEXICANA in compliance with NOM-035-STPS-2018. Finally, by this manifest means I release CANON MEXICANA from any responsibility related to the fulfillment of the purposes established by NOM-035-STPS-2018, "Psychosocial risk factors at work – Identification, analysis and prevention", and other dispositions that emanate from it, derived from my previous answer.
