| | DIA | MES | AÑO | | |
| | 20 | 07 | 26 | **2.0** | |

**Objective:**

The purpose of this policy is to define the corporate identity represented by the pins and to ensure their exclusive use by Canon employees.

The pins symbolize the achievements of those who founded the company and worked diligently to make Canon the highly respected company it is today. Wearing them represents pride in belonging to this organization and demonstrates the wearer's commitment to continuing to build on our reputation as a global leader while moving confidently toward the future.

The pin was designed in the shape of an eagle—Canon's symbol since its founding, which appears on the company's flag—reminding employees of the company's rich history and pointing toward future growth.

**Scope**

This policy applies to all Company employees.

**Guidelines**

1. Canon expects and requires its employees to wear the pin in a formal manner consistent with good business practices as part of their daily work.

2. All staff members must wear the pin when visiting clients, receiving visitors, or attending special events. As an exception, Field Engineering staff (who visit clients as part of their daily work) are exempt from wearing it during their routine activities and must wear it only at special events or extraordinary meetings.

3. The pins will be awarded solely and exclusively to employees who have been hired as permanent staff (after completing a three-month probationary period following their hire).

4. The pins will be provided to employees on a loan basis, not as gifts. Therefore, upon leaving the company (whether through voluntary resignation or termination), they must be returned in the same condition in which they were received.

5. All employees who do not currently have a pin must visit the Human Resources department within 10 business days of the publication of this policy to receive their corporate pin.
