## OBJECTIVE

In order to ensure proper management of computer equipment owned by the company, this policy aims to establish guidelines for the proper use of computer equipment..

## SCOPE

This policy will apply to:

a) Company's employees.
b) Outsourcing personnel.

## GENERAL GUIDELINES

A. The User must be trained in the use of software and hardware (computer equipment).

B. The installation of software by the user is prohibited and may only be carried out by the Systems Department.

C. The equipment will be used exclusively to develop the work of the company, should not be used for personal purposes (upload music, photographs, etc.).

D. The User is responsible for keeping the equipment in perfect condition.

E. The User must immediately inform the Systems Department about any anomaly or failure that the equipment presents.

F. Do not smoke or eat food or drink while working with the equipment.

G. In case of theft outside the company, it is necessary to draw up the corresponding minutes before the relevant authorities and immediately inform the General Services and Systems departments to take the necessary measures.

H. It will be the responsibility of the User:

| IT: | LEGAL: |
|---|---|

a) The payment of the deductible in case of theft or total or partial loss, when the loss is due to causes attributable to the employee.
b) The repair payment of the damages caused to the equipment, when these are caused by causes attributable to the user.
c) Maintain the integrity of the applications installed on the equipment, so if it is necessary to reinstall or re-configure it, it must be requested and carried out by the Systems area.

I. The Systems Department will periodically check the status of the equipment, as well as the Software installed on it through audits.

J. The user must take special care in handling information, verifying any CD or DVD that accesses the computer with the company's antivirus. In the case of using external USB memories, these must be authorized and pre-analyzed previously by the Systems area in order to avoid risks of computer threats.

K. The exchange of information between a portable and a fixed equipment in the company will have to be only in very necessary cases and with the approval of the Systems area, since it could contaminate the network if the management is not appropriate.

L. The computer equipment is not for personal use so it is strictly forbidden to attach labels of any advertising campaign in it.

It is strictly prohibited:

The information generated and stored in any of the company's equipment is the property of Canon Mexicana, which is why it must be considered confidential and protected by Mexican laws, leaving the user strictly forbidden to send it to sources external to the company and for different purposes for which access was authorized.

In case of incurring any of the above points, the user will be sanctioned as follows:

I. Incurring (for the first time): An Administrative Minute issued by the Human Resources Department will be created, which will be stored in your personal file and will indicate the detail of the fault incurred

II.Missing (subsequent): the user's equipment will be removed and will be available to the Systems Department until their situation is determined.

III. In case of violation of the provisions of the section "Strictly prohibited", the company may terminate its employment contract, without liability for the latter, without prejudice to Canon Mexicana S. De R.L. of C.V. and To demand before the civil or criminal courts the payment of the damages and losses that this situation may cause.

Likewise, the user assumes the responsibility of the good use of the Computer Equipment, reason for which it is demarcated to Canon Mexicana S. De R.L. of C.V. of all responsibility for this concept.

Finally, Canon Mexicana reserves the right to deny publicly and through the means it deems pertinent, any confidential information that is published without its express authorization.

The user expresses his knowledge of the policy "Responsibilities of the computer user of the computer", as well as his agreement to apply the corresponding sanctions in case of committing any incident.
